

RESOLUTION NO 12-034

A RESOLUTION OF THE CITY OF ROSLYN, WASHINGTON, AUTHORIZING THE MAYOR TO SIGN A PURCHASE AGREEMENT WITH VISION MUNICIPAL SERVICE

WHEREAS, the City of Roslyn conducted a utility rate study in 2011 and determined during that study that handheld meter reading devices were needed to help improve efficiencies; and

WHEREAS, the public works crew has looked at the three different models and determined the Archer Field PC handheld would be the best fit for our needs; and

WHEREAS, Vision Municipal Service offers the handheld device the City desires to purchase and will install the appropriate software on the handhelds so that they will work with the City's utility billing software; and

WHEREAS, the purchase of the handhelds is listed in the 2012 budget;

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ROSLYN, WASHINGTON, AS FOLLOWS:

Section 1. The Mayor is hereby authorized to sign a purchase agreement for 2 Archer Field PC's (also known as handhelds) with Vision Municipal Services.

ADOPTED BY THE CITY COUNCIL AT A REGULAR MEETING THEREOF THE 13TH DAY OF NOVEMBER, 2012.

Neal R. Lockett, Mayor

Purchase Agreement for Vision Hardware and Services between the City of Roslyn and Vision Municipal Solutions, LLC

This Software License Agreement "Agreement" is made effective on the date noted by and between Vision Municipal Solutions, LLC "Developer" and the City of Roslyn "Licensee".

"Developer" has developed and licenses to users its "Software" programs marketed and sold under the name "Vision Financials, Vision Payroll, and Vision Reporting Services" "Software".

"Licensee" desires to utilize a copy of the "Software". NOW, THEREFORE, in consideration of the mutual promises set forth herein, "Developer" and "Licensee" agree as follows:

1. License:

"Developer" hereby grants to "Licensee" a perpetual, non-exclusive, non-transferable and irrevocable license to use the "Software" at the City of Roslyn location set forth in this Agreement.

2. Restrictions:

"Licensee" shall not modify Source Code, duplicate, copy or reproduce, licensed "Software", or transfer or convey the "Software" or any right in the "Software" to anyone else without the prior written consent of "Developer"; except for that "Licensee" may make copies of the "Software" for backup or archival purposes.

3. License Fee:

In consideration for the grant of the license and the use of the "Software", "Licensee" agrees to pay "Developer" the sum of \$1,600.00 plus applicable sales tax.

4. Warranty:

A. "Developer" hereby represents and warrants to "Licensee" that "Developer" is the sole owner of the "Software" or otherwise has the right to grant to "Licensee" the rights to use the "Software" set forth in this Agreement

B. For a period of one year (365 days) following the delivery of the "Software" to "Licensee" (the "Warranty Period"), "Developer" warrants that the "Software" shall perform in all material respects according to the "Developer's" specifications concerning the "Software" when used with the appropriate computer equipment. In the event of any breach or alleged breach of this warranty, "Licensee's" sole remedy shall be that "Developer" shall correct the "Software" so that it operates according to the warranty. This warranty shall not apply to the "Software" if modified by anyone or if used improperly or on an operating environment not approved by "Developer".

Vision Municipal Solutions, LLC

PO Box 28429

Spokane, WA 99228

Phone (509) 315-8845 Fax (888) 223-6007

Website: www.visionms.net Email: info@visionms.net

5. Annual Software Assurance Program Schedules:

A. In the year of installation, the Software Assurance amount, listed on page 1, will be pro-rated for the remainder of that year. Beginning in January, "Developer" will provide the annual support amount based on installed Vision software systems. "Developer" shall provide to "Licensee" any new, corrected or enhanced versions of the "Software" as created by "Developer". Such enhancements shall include all modifications to the "Software" which increase the performance, efficiency or ease of use of the "Software", or add additional capabilities or functionality to the "Software", but shall not include any customizations requested by "Licensee". Customizations will be quoted on a per-job basis at the rate of \$125.00 per hour.

B. Each following year, "Licensee" will be invoiced for software maintenance and support under the annual "Software Assurance Program" provided by "Developer" billed annually (January 1st through December 31st). Software Assurance rates are subject to change.

The annual "Software Assurance Program" will include telephone support, email, and on-line programs provided by "Developer" and product updates and enhancements to include any standard reports added to the system. The "Licensee" will be required to have a high speed internet connection for "Software" updates and allow "Developer" the right to remote access for program updates and maintenance work when required.

6. Payment and acceptance:

Payment for "Software", "Hardware", and "Installation Services" shall be made by "Licensee" after all items contracted for have been delivered as stated in the Purchase Agreement and "Licensee" has deemed all "Software", hardware, and services have been delivered and accepted.

7. Time Payment Schedule:

If "Licensee" elects to cancel the payment contract prior to last payment, all "Software" monies will become due at the point of cancellation of payment schedule. The monies due will only be for "Software" and not to include any future "Software Assurance Program" billings.

There is no penalty for paying off the balance at any time.

8. Limitation of Liability:

"Developer" shall not be responsible for, and shall not pay, any amount of incidental, consequential or other indirect damages, whether based on lost revenue or otherwise. In no event shall "Developer's" liability hereunder exceed the amount of license fees paid by "Licensee" regardless of whether "Licensee's" claim is based on contract, strict liability or product liability.

9. Authority:

Each party has full power and authority to enter into and perform this "Agreement", and the person signing this "Agreement" on behalf of each party has been properly authorized and empowered to enter into this "Agreement". Each party further acknowledges that it has read this "Agreement", understands it, and agrees to be bound by the "Agreement". The parties' acceptance is expressly limited to the terms hereof and no different or additional terms contained in any purchase order, confirmation, or other writing shall have any force or effect unless expressly agreed to in writing and signed by both parties.

Website: www.visionms.net Email: info@visionms.net

10. Installation Travel Expenses billed to the customer:

Travel expenses will be billed for installation services performed at the "Licensee's" site. Employees of "Developer" may use their personal vehicle. Mileage will be charged at the current published IRS reimbursement rate or a rental car can be used. Rental car rate and actual gas charges will be billed for installation services if a rental car is used. Transport fees such as Ferry expenses if applicable will be billed at actual costs. Per Diem charge if applicable will be billed at the current state published rate. Lodging will be charged if "Developer's" personnel are required to stay overnight. "Developer" will only bill for actual travel expenses.

The Archer logo features the word "archer" in a bold, lowercase, sans-serif font. The text is contained within a white, curved shape that resembles a stylized arrow or a protective shield, with the top edge curving upwards and the bottom edge curving downwards.

archer

The background of the advertisement is a black and white photograph of a rugged, textured surface, likely a piece of outdoor gear or a natural rock formation. The texture is highly detailed, showing various ridges, crevices, and irregular shapes. The lighting is dramatic, highlighting the three-dimensional quality of the surface.

ULTRA-RUGGED FIELD PC

ROCK SOLID, FIELD READY

Archer

The Archer is your reliable field companion. Use it to document, navigate, and share information. Extend your horizons by using the Archer with peripheral sensors, or custom configure it for specialized applications. Its function focused form fits your hand like a glove. Depend on the Archer... it is waiting for you.

- Built for extreme environments
- FM Approved Class 1, Div 2 for use in potentially explosive areas
- Large, tactile, backlit keys
- Outdoor readable color display, portrait or landscape view
- Form fits your hands with easy-to-grip orange or gray over molding
- Long battery life

© design advantages

- Windows Mobile 6.1 Classic
- Microsoft Office Mobile applications included
- OS available in multiple languages
- Customizable for OEM
- 128 MB RAM and 512 MB data storage
- Fast 520 MHz processor

© solutions oriented

- Bluetooth wireless technology and Wi-Fi options
- USB Host and Client

- Power Dock synchronizes data while charging battery

© connections abound

what's new for you on the archer field pc®

Windows Mobile® 6.1 Classic Operating System

The Archer Field PC now runs Windows Mobile 6.1 Classic Operating System offering many advantages to users and software developers. Features include:

- Enhanced security and control with enterprise network, exchange server, and internet connections keep your data safe.
- Microsoft® Office Mobile applications support Microsoft Office® 2007 file formats.
- Bluetooth® wireless technology connections are maintained through suspend and resume improving usability with connected devices.
- Multiple network connections, including Activesync, Wi-Fi, and Bluetooth, are supported even when connections are used simultaneously.
- New tools improve ease of use in the field and allow prioritization of handheld operations.
- New control panel allows use of applications while touchscreen is disabled.
- Operating system updates and data storage file maintenance are faster and easier.

More Data Storage Capacity – 512 MB Standard; Support for SDHC cards

All Archer Field PC models now come standard with 512 MB of internal data storage. The Archer now supports both Secure Digital (SD) and Secure Digital High Capacity (SDHC) cards. SDHC cards provide up to 32 GB of data storage capacity for data intensive applications.

Hemisphere GPS® XF101 Receiver – new optional extension for the Archer
The Archer with the Hemisphere GPS XF101 Receiver provides an all-in-one, fully sealed (IP67) handheld computer ready for rapid-fire, mobile GIS in extreme environments. The economical, high performance XF101 GNSS Receiver delivers real-time sub-meter GNSS to location-based applications. Higher levels of accuracy can be achieved using an external antenna and post-processing options.
